Deadline for manuscript
submissions:

closed (29 February 2024)

Message from the Guest Editor

The global COVID-19 pandemic has significantly impacted the way we work and has worsened the working environment of workers. Nowhere is this more pronounced than among shift workers, including but not limited to those in the health and industrial sectors. Their health and well-being impact is widespread, including exposure to acute infection to chronic disease.

The world of work continues to evolve, and we require international collaborations to address the rising challenges of climate change, public health crises and greater instability in global economies. This Special Issue will address shift work and occupational health in all sectors. We invite you to submit your papers examining health, well-being and work. Industry, academia and partners must work collaboratively to address these complex problems with solutions that are evidence-based.

- occupational health
- shift work
- interdisciplinary
- physical health
- mental health

healthcare

an Open Access Journal by MDPI

Editor-in-Chief

Message from the Editor-in-Chief

Healthcare is an international, scientific, peer-reviewed, open access journal on health care systems, industry, technology, policy, and regulation, and is published semimonthly online by MDPI. Ocular Wellness & Nutrition Society (OWNS) is affiliated with *Healthcare* and its members receive discounts on article processing charges.
