Deadline for manuscript submissions:
closed (31 December 2021)

Message from the Guest Editors

The challenge of ageing populations has led to the development of technical platforms aiming to support health and care services. Given the effort to move to an in-home care model as much as possible, the contribution of information and communication technologies (ICT)-enabled care can transform modern houses to smart homes able to support the needs of elderly people, chronic patients, and persons in need of guidance and care due to age-related conditions or disabilities. This Special Issue welcomes contributions of studies focused on these advantages and challenges of Smart Home Care, based on various technological platforms and covering all aspects of care. We are interested in studies and reviews focused on the evaluation of Smart Home Care services, rather than reports of technological breakthroughs.

Special Issue

Editor-in-Chief

Message from the Editor-in-Chief

Healthcare is an international, scientific, peer-reviewed, open access journal on health care systems, industry, technology, policy, and regulation, and is published semimonthly online by MDPI. Ocular Wellness & Nutrition Society (OWNS) is affiliated with *Healthcare* and its members receive discounts on article processing charges.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank: JCR - Q2 (*Health Care Sciences and Services*) / CiteScore - Q2 (*Leadership and Management*)
