Deadline for manuscript submissions:
30 September 2024

Message from the Guest Editors

Dear colleagues,

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Innovative approaches to on-the-job training: novel methods for skill development, innovative training modules, and pedagogical strategies for effective on-the-job training.
- Professional competence and career development: strategies for career progression and challenges faced by healthcare professionals in various fields.
- Ongoing training and skill development: best practices for continuous professional development, upskilling, and lifelong learning to meet the evolving demands of healthcare.
- Evidence-based competence: research on integrating evidence-based practices into healthcare settings, including case studies and evaluations of successful implementation.
- Research training and development: initiatives, tools, and methodologies to enhance the research-related skills and knowledge of healthcare practitioners and promote a culture of inquiry in healthcare organizations.

We look forward to receiving your contributions.

Dr. Eva María Navarrete-Muñoz and Dr. Desirée Valera-Gran
