

## Special Issue

# Healthcare Disparities in Screening, Detection and Treatment of Cancer

### Message from the Guest Editors

Healthcare disparities are differences in health outcomes and access to healthcare services among different population groups. Disparities in cancer care lead to unequal health repercussions and exacerbate existing social inequalities in modern society. These disparities can occur across various dimensions, including race, ethnicity, socioeconomic status, gender, geography, and education, and have profound consequences for individuals and communities. This Special Issue aims to explore the critical challenges and inequities faced by diverse populations in cancer care, from early screening to treatment outcomes.

### Guest Editors

Dr. Clara Benna

Dr. Silvia Negro

Dr. Giulia Becherucci

Dr. Giulia Capelli

### Deadline for manuscript submissions

31 August 2026
