Advances in Community Neurorehabilitation

Message from the Guest Editor

The topic of Community neurorehabilitation (CNR) is so far little developed, the number of reports in scientific journals is small. In the 21st century, community neurorehabilitation has emerged as a promising extension of neurological rehabilitation and, because of its multidisciplinary focus, many variations of CNR teams have been implemented. Critical gaps exist, however, in understanding of the influence on recovery of structural and procedural differences among programs, as well as patient-level variables such as social support. Individuals with a variety of neurological conditions, such as stroke, multiple sclerosis (MS), Parkinson's disease (PD), spinal cord injuries (SCIs), and acquired brain injuries; people who have suffered brain trauma or injury and need guidance to return to their everyday lives; individuals who have been discharged from inpatient rehabilitation but still need ongoing therapy; and those with chronic, progressive neurological conditions who do not require hospitalization. We will welcome brief reports, original research reports, or review articles on CNR.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, scientific, peer-reviewed, open access journal on health care systems, industry, technology, policy, and regulation, and is published semimonthly online by MDPI. Ocular Wellness & Nutrition Society (OWNS) is affiliated with Healthcare and its members receive discounts on article processing charges.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Sue & Bill Gross School of Nursing, University of California, Irvine, CA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1
(Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
