Advances in Plastic and Reconstructive Surgery

Message from the Guest Editor

Plastic and reconstructive surgery is a creative field of research, where new techniques are emerging all the time. Even though we are not currently in the midst of a major revolution like in the 1960s when microsurgery first emerged, or the late 1980s when perforator flaps were developed, still, in the last decade many factors have constantly modified our daily practice, such as the application of new technologies, developments in tissue engineering, and the adaptation to the COVID-19 pandemic. We invite all researchers to share with us all the latest changes in plastic and reconstructive surgery.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Louise Herrington School of Nursing, Baylor University, Dallas, TX
75246-1754, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1
(Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
