

## Special Issue

# Advances and Challenges on Obesity and Its Related Metabolic Disease

### Message from the Guest Editor

In the last several decades, the world has seen a sustained increase in obesity. Obesity is related to a constellation of individual risk factors for several diseases, with higher prevalence among adult populations and representing an increasing cost for public health systems worldwide. Obesity increases the risk of metabolic disease, especially diabetes, cardiovascular disease, hypertension, and fatty liver disease, and seems to be linked to several debilitating disorders such as neurodegenerative disease and cancer. Obesity-related consequences accelerate the physiological aging processes with chronic low-grade systemic inflammation that can influence whole-body homeostasis and functions. This Special Issue aims to take a multidisciplinary approach in which all topics important to gaining new knowledge in these fields could be treated.

## About the Journal

### Message from the Editor-in-Chief

*Healthcare* is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

*Healthcare* hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Sue & Bill Gross School of Nursing, University of California, Irvine, CA  
92697, USA

### Author Benefits

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

#### Journal Rank:

JCR - Q1 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2026).
