Health Risks in the Work Environment: Assessment and Improvement

Message from the Guest Editors

Occupational hazards—physical, biological, chemical, psychosocial, and ergonomic—exist in every workplace in various combinations. Work practices change over time and new hazards may appear, but old ones still exist and some of them may become even more dangerous causing work-related diseases and injuries. Risk assessment for reducing or eliminating workplace or job-related hazards is a vital process that should consider not only existing legislation and related policies but also the worker's view. Employee and employer risk perception and knowledge, as well as an observance of proposed solutions aimed at improvements for both the workers' health and the work environment, is of paramount importance. The aim of the Special Issue is to invite submissions—original articles, reviews, and meta-analyses—that have assessed the impact of occupational hazards on the health of the workforce and/or evaluated interventions, including change in policies, that could improve the workforce health as well as have a positive impact on the work environment.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Louise Herrington School of Nursing, Baylor University, Dallas, TX
75246-1754, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1
(Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.4 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
