

Special Issue

Cost, Economics and Databases of Pharmaceutical Drugs in Public Health: Second Edition

Message from the Guest Editor

Public health does not only concern patients and medical procedures aimed at improving the health of the population, subpopulations, and target groups in terms of treating disease. Rather, it includes issues such as the quality of life, the costs of procedures, disease prevention, and drugs. These issues are critical elements of national, continental and global healthcare strategies, as perfectly demonstrated by the COVID-19 pandemic. Pharmacoeconomics, health economics, and medical decision economics are just some of the essential elements of medical strategy, which is perceived differently in different countries. This Special Issue, entitled “Cost, Economics and Databases of Pharmaceutical Drugs in Public Health: Second Edition”, offers a unique opportunity to show the multifaceted nature of this issue, starting from costs and ending with the use of medical databases and systematic reviews in the effective use or allocation of resources to treat patients (including drugs). I cordially invite you and your staff to submit publications to this Special Issue.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Louise Herrington School of Nursing, Baylor University, Dallas, TX
75246-1754, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
