

Special Issue

Innovations in Precision Nursing: Patient-Centric Care and Technological Advancements

Message from the Guest Editors

Our Special Issue aims to explore the intersection of nursing with innovative technologies. We invite clinicians and researchers to contribute evidence-based recommendations, articles that outline the current state of the art, and validation studies that culturally adapt existing assessment tools. Contributions may also provide new insights into the psychometric properties of these tools, enhancing their applicability in precision nursing. Areas of interest for this Special Issue include, but are not limited to, the following:

- Systematic reviews and meta-analyses of nursing assessment tools.
- Validation and psychometric studies of existing and new nursing assessment tools.
- Comparative studies on the effectiveness of traditional vs. technology-enhanced nursing interventions, with a focus on patient-centric care.
- Innovative applications of data analysis and artificial intelligence in nursing.

We look forward to receiving your insightful contributions to this important field.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Sue & Bill Gross School of Nursing, University of California, Irvine, CA
92697, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q1 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2026).
