

Special Issue

Medication Safety

Message from the Guest Editor

The scope of this Special Issue is to disseminate research evidence on medication safety. The Special Issue will include research on the development and testing of interventions to increase medication safety. Research relating to factors affecting medication safety is also within scope the scope of this Special Issue. We encourage submissions related to one or more of the priority areas and domains of the World Health Organization Medication Without Harm Challenge. The priority areas are: high-risk situations, transitions of care, and polypharmacy. The domains are: patients and the public, healthcare professionals, medicines, and systems and practices of medication. Submissions may be quantitative, qualitative, or mixed-methods research or reviews that meet established review standards, and data may be from primary or secondary sources. All types of study design will be considered. All healthcare settings, including acute care, long-term care, community and home care, mental health, and primary care will be included. All populations and medical conditions will be considered.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Louise Herrington School of Nursing, Baylor University, Dallas, TX
75246-1754, USA
