New Challenges in Health Care Services Among Patients with Musculoskeletal Pain

Message from the Guest Editor

Musculoskeletal pain is a prevalent and complex health issue that affects millions of individuals worldwide. With an aging population, increased prevalence of chronic conditions, and changing lifestyles, the demand for healthcare services related to musculoskeletal pain is growing rapidly. This Special Issue aims to provide a platform for researchers, clinicians, and healthcare professionals to present their latest findings, innovative approaches, best practices in the assessment, management, and delivery of healthcare services for patients suffering from musculoskeletal pain. In this Special Issue, we welcome original studies, using qualitative, quantitative, and mixed methods, and (all kinds of) reviews.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Sue & Bill Gross School of Nursing, University of California, Irvine, CA
92697, USA
