The Impact of the COVID-19 Pandemic on Health: Time to Take a Longer-Term Perspective

Message from the Guest Editors

During the initial outbreak of the COVID-19 pandemic, there was a worldwide struggle to control the spread of the disease and save lives. As life with the pandemic continues, a range of social mental and medical consequences have emerged. It is important to have a broad understanding of the health effects of the pandemic and the measures taken to control it. Health, according to the World Health Organization, is "a state of complete physical, mental and social well-being and not merely the absence of disease and infirmity". We call for papers that will improve our understanding of the effects of the pandemic, including topics such as:

- The physical and mental impact of the infection itself, i.e., long COVID.
- The physical and mental health consequences of lockdowns and social distancing.
- The impact on health in different cultures and different age groups.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Louise Herrington School of Nursing, Baylor University, Dallas, TX
75246-1754, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1
(Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
