Emotions in Healthcare: Current and Emerging Directions

Message from the Guest Editor

Research studies largely converge in considering that emotions play pivotal roles in professionals' education and practice and in patient health outcomes. However, the ongoing scientific debate is limited by the lack of exhaustive analysis and comparison of theoretical and empirical approaches for the studies of emotions in healthcare. This collection aims to showcase theoretical and methodological approaches in the study of emotions in healthcare and to highlight emerging directions. Review and empirical papers with strong methodological rigor are welcome. We particularly invite the submission of papers that specifically address theories and assessment of emotions in healthcare education; hospital settings (expressions, recognition, and regulation); patient-reported outcome assessment; patient-caregiver interactions; mHealth technology and AI modeling; and healthcare prevention.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Sue & Bill Gross School of Nursing, University of California, Irvine, CA
92697, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q1 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2026).
