

## Special Issue

# Alcohol Use and Hangover

### Message from the Guest Editors

The Special Issue will focus on the impact of alcohol use and hangover on physical and mental health. Alcohol is the most widely used psychoactive substance globally. Heavy and harmful use of alcohol represents a high burden of diseases with significant social and economic consequences. Alcohol hangover also has the potential to impact physiological and psychological mechanisms underlying everyday behaviours including driving, workplace absenteeism and productivity, and interpersonal relationships.

This Special Issue aims to bring together research across fields including psychology, public health, and pharmacology. We look forward to receiving your contributions to this Special Issue addressing the impact of alcohol use and hangover.

## About the Journal

### Message from the Editor-in-Chief

*Healthcare* is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

*Healthcare* hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Sue & Bill Gross School of Nursing, University of California, Irvine, CA
