Special Issue

Global Strategy on Digital Health: Challenges and Perspectives

Message from the Guest Editors

We are pleased to invite contributions that offer new insights into the global strategy on digital health, its implementation, challenges, and future perspectives. We welcome articles that analyze policy frameworks, report on country-specific implementations, and offer conceptual models for global digital health collaboration.

In this Special Issue on "Global Strategy on Digital Health: Challenges and Perspectives", original research articles and reviews (including scoping review and systematic reviews) are welcome. Research areas may include (but are not limited to) the following:

- Analyses of national and international digital health strategies;

- Challenges in implementing digital health in diverse health systems;

- Ethical, legal, and governance issues in digital health;

- Health equity, digital inclusion, and access to technology;

- Innovations in digital health evaluation frameworks;

- Stakeholder perspectives and user-centered design in digital health.
