

Special Issue

Nursing, Coaching, Oncology and Chronic Diseases: Future Insights and Perspectives

Message from the Guest Editors

This Special Issue of *Healthcare* will improve future insights and perspectives on oncology and chronic diseases through coaching interventions. Health coaching represents a new methodological approach in healthcare systems, which improves both patients and healthcare professionals to achieve their desired health outcomes and inspires them to evaluate their related choices, make decisions, identify challenges and ameliorate their health attitudes, encouraging positive emotions and self-care, from the perspective of their own health outcomes and quality of life. Health coaching requirements focus on individual-centered strategies, establishing relations between the coach and the coached, improving health outcomes and education from a self-care perspective. These aspects will focus on several nursing role activities, such as education, research, organization and professional training, while considering different nursing care contexts, such as prevention, screening, diagnosis, palliative treatment and rehabilitation.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Louise Herrington School of Nursing, Baylor University, Dallas, TX
75246-1754, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1
(Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
