

Special Issue

Eye Care and Vision Health Beyond 20/20

Message from the Guest Editor

I am delighted to serve as a on this Special Issue entitled “Eye and Vision Health Beyond 20/20”. The pun is indeed intended, as we expected 2020 to be an excellent year for us, but unfortunately COVID-19 stood in our way. This additionally broke the fallacy that 20/20 represents optimal vision and health. We emerged more robust than ever after COVID-19, and the science of telemedicine indeed took a quantum leap forward. I look forward receiving articles that discuss advances in imaging, new technology, novel therapies, and preventative medicine in eye care and vision health. I welcome both research and review articles, including research articles that have not fulfilled their hypothesis. I look forward to an exciting and much-needed Special Issue that will equally interest individuals training in the field and experts.
