

## Special Issue

# Advancing Health Practice and Education Through Digital Health and Artificial Intelligence

### Message from the Guest Editor

Digital health and AI are revolutionizing healthcare and education, offering unprecedented opportunities to improve outcomes, enhance accessibility, and streamline processes. These technologies are transforming the delivery of care, enabling data-driven decision-making, and empowering patients and providers. In the realm of education, AI-powered tools are personalizing learning experiences, fostering adaptive instruction, and equipping future healthcare professionals with the skills needed to navigate a technology-driven landscape. This Special Issue aims to explore the critical role of digital health and AI in advancing health practice and education. By showcasing cutting-edge research, innovative applications, and real-world case studies, it seeks to highlight the transformative potential of these technologies while addressing challenges such as ethical considerations, data privacy, and accessibility. We look forward to receiving your contributions.
