

Special Issue

Updates on Oncology Rehabilitation

Message from the Guest Editors

Patients being treated for cancer may present significant changes in body structures and functions, which could impact functional outcomes regarding activities and participation in some domains belonging to the biopsychosocial model of the International Classification of Functioning, Disability and Health developed by the World Health Organization. Therefore, interventions are needed to minimize the side effects of cancer treatments (lymphedema, fatigue, pain), preventing secondary comorbidities (cardiovascular diseases), recurrences, or the abandonment of treatments. In this Special Issue, we welcome original research articles/reviews. Research areas may include (but are not limited to) the following: multidisciplinary oncological rehabilitation, both before, during, and after oncological treatments; rehabilitation treatments to prevent fatigue, pain, lymphedema, and musculoskeletal problems in patients with cancer; rehabilitation treatments to improve occupational performances in patients with cancer; reviews of evidence of treatment rehabilitation in oncology; physical activity and cancer; oncological telerehabilitation.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Louise Herrington School of Nursing, Baylor University, Dallas, TX
75246-1754, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1
(Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
