# Innovating Care in the Post-Pandemic Era: Models, Leadership, and Technologies for the Future of Nursing

### Message from the Guest Editors

We are pleased to invite you to submit your manuscript for a Special Issue titled 'Innovating Care in the Post-Pandemic Era: Models, Leadership, and Technologies for the Future of Nursing'. This Special Issue aims to collect scientific contributions that analyze innovative strategies and interventions to improve the physical and mental well-being of healthcare workers, with a specific focus on the nursing profession. In this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Telecare service to manage chronicity beyond the hospital;
- Proactive nursing models to meet future challenges;
- Workload management and reorganization strategies to prevent fatigue and burnout;
- Role of professional autonomy and control over work in promoting resilience;
- Innovations and technologies to support the well-being of nurses;
- Interventions to improve psychological and social support for nurses;
- Comparative studies on the impact of the pandemic on healthcare staff in different national contexts;
- Analysis of health and organizational policies for protecting and enhancing the nursing workforce.
