

Special Issue

Second Edition of Innovative Solutions for Oral Healthcare

Message from the Guest Editor

Our commitment to oral healthcare can include numerous topics. Innovative tests and analyses can facilitate early and more accurate diagnoses. Dental care can have both positive and negative short- and long-term effects which impact oral health, quality of life, and the costs of future care. The expected benefits and satisfaction of clinical requests should guide the choice of materials and therapeutic strategies. The health and well-being of the population are influenced by the prevention and treatment of oral diseases and their relapse. Therapeutic choices are influenced by the costs and effectiveness of therapies, the professional skills of the caregiver, the increasingly complex patient profile due to the presence of numerous comorbidities, and the difficulty of the individual case. Dental materials must be carefully validated in terms of safety, biocompatibility, and biological effects. Finally, the spread of infectious diseases such as COVID-19 imposes changes in therapeutic choices and the clinical management of dental patients. We will feature original research studies, reviews, short reports, case reports, and opinion pieces from researchers on these topics.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Louise Herrington School of Nursing, Baylor University, Dallas, TX
75246-1754, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1
(Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
