

## Special Issue

# Advancing Healthcare Delivery and Patient Quality of Care Through Healthcare Professionals' Development

### Message from the Guest Editors

Healthcare professionals' education (HPE) plays a pivotal role in enhancing healthcare delivery and improving the quality of patient care. This Special Issue aims to explore how various aspects of HPE, contribute to improved clinical practice and enhanced quality of care. We invite submissions that address the direct link between educational strategies and the enhancement of healthcare delivery and patient care. The research areas may include (but are not limited to) the following: Quality improvement projects in clinical education and their effects on healthcare delivery and patient care; Service learning and its impact on patient outcomes; Interprofessional education and its impact on healthcare delivery; HPE's role in shaping professional behaviors and ensuring fitness to practice; Addressing Equality, Diversity, and Inclusion through innovative approaches in healthcare education; Optimizing HPE, using artificial intelligence (AI) and technology to enhance healthcare delivery We emphasize that the contributions should demonstrate a clear link to improving healthcare delivery and address the quality of care.
