Patient Experience and the Quality of Health Care

Message from the Guest Editors

We are pleased to invite you to prepare a manuscript on the topic of patient experiences, the quality of healthcare, and quality of life. The study of patient experiences, the quality of healthcare, and quality of life has become increasingly important in the field of medical research and practice. Patient experience encompasses a wide range of interactions that patients have with the healthcare system, including communication with healthcare providers, access to care, and the overall environment of care facilities.

Positive patient experiences are linked to better health outcomes, improved patient adherence to treatment plans, and higher levels of patient satisfaction. The quality of healthcare, on the other hand, is a multifaceted concept that includes the effectiveness, safety, and timeliness of the care provided. High-quality healthcare ensures that patients receive evidence-based treatments that are effective and safe, delivered in a timely manner to minimize adverse outcomes and enhance recovery. Continuous monitoring and improvement of healthcare quality are vital for patient safety and for achieving optimal health outcomes.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peer-reviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Louise Herrington School of Nursing, Baylor University, Dallas, TX 75246-1754, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.4 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
