

## Special Issue

# Current Advances in Cardiovascular Disease

### Message from the Guest Editors

This Special Issue aims to include high-quality studies (quantitative and qualitative original research articles, systematic reviews and meta-analyses) which investigate crucial and current issues in cardiovascular disease prevention and management aiming to add new data to the existing body of knowledge. We are pleased to invite multidisciplinary researchers interested in CVD care to submit their manuscripts based on the aim of the present Special Issue. Research areas may include (but are not limited to) the following: Advanced care of acute and chronic CVD; Evidence-based care in cardiovascular disease; Cardiac rehabilitation, self-care and quality of life of CVD patients; Primary and secondary CVD prevention; Current issues in surgical CVD care; CVD patients' outcomes; Advances in mechanical circulatory support; Cardiogenic shock support and special care; COVID-19 and CVD; Monitoring of CVD patients. We are looking forward to receiving your valuable contributions. Best regards,

---
