

Special Issue

Enhancing Patient Safety in Critical Care Settings

Message from the Guest Editor

We are pleased to invite you to this Special Issue, which aims to gather cutting-edge research and expert insights dedicated to advancing patient safety in critical care. Original research articles, reviews, case reports, and short communications exploring innovative strategies, successful implementations, and future directions for ensuring the highest standards of patient safety in critical care settings are welcome. Research areas may include, but are not limited to, evidence-based management protocols, clinical decision-making, interprofessional collaboration, prevention strategies, psychological well-being and resilience, simulation, and training.
