

Special Issue

Periodontal Diseases and Oral Health: 2nd Edition

Message from the Guest Editor

Periodontitis is one of the most common chronic diseases globally, and its diagnosis and treatment have come a long way from the times when the only answer was tooth extraction to the present-day evidence-based guidelines. The disease has also been linked to various systemic conditions, and some studies have suggested that it plays a causal role in stimulating an immune-inflammatory response. If periodontitis is treated using professional bacterial biofilm control, it can be slowed down or stopped in most cases; however, if any factor affects either the local environment or the host response, progression of the disease may occur. Clinicians are still seeking additional therapy tools and agents, which could be of benefit in periodontal therapy and help maintain oral health. In this Special Issue, we aim to publish new and relevant information and results from recent investigations focusing on different aspects of periodontal diseases, including etiopathogenesis, diagnosis, prevention, and treatment of different periodontal conditions in the context of oral and general health.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Louise Herrington School of Nursing, Baylor University, Dallas, TX
75246-1754, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1
(Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
