

## Special Issue

# Health, Social Problems and Well-Being of Patients with Chronic Diseases, Quality of Life, and the Need for Emotional and Social Support: Second Edition

### Message from the Guest Editors

This Special Issue aims to learn about health, social, and emotional problems, assess quality of life, and evaluate the need for social and emotional support for people with chronic diseases. The presence of a chronic disease not only disturbs the functional, physical, and social aspects of life but also evokes negative emotions. This situation causes a decrease in well-being and disturbs the quality of life in all areas. We welcome articles from all healthcare settings. Study groups may include patients and caregivers. Articles may be original studies or reviews.
