

Special Issue

New Approaches in Invasive and Non-Invasive Rehabilitation: From Basic Science to Clinical Intervention—Second Edition

Message from the Guest Editors

This Special Issue aims to explore and disseminate novel and emerging approaches within invasive and non-invasive rehabilitation, with a special focus on translating findings from basic science into clinical practice. The goal is to enhance our understanding and the effectiveness of therapeutic strategies that support functional recovery, pain reduction, and tissue regeneration.

We look forward to receiving your contributions.
