

Special Issue

Promotion and Protection of Health and Psychophysical Wellbeing in the Workplace

Message from the Guest Editors

Occupational health is a major problem in modern work environments. According to the World Health Organization (WHO), workplace health risks cause occupational diseases and can aggravate other health problems. Organizational environmental work-related factors—such as occupational stress, night- and shiftwork, sedentary work, unhealthy food intake at work, air pollutants, etc.—can contribute to the onset of diseases. This Special Issue offers an opportunity to publish high-quality multi-disciplinary workplace health and wellbeing promotion research. Specifically, research based on the bio-psycho-social model that investigates the bio-medical, motor-psycho-pedagogical-relational, and labour-law fields from a cross- and multidisciplinary perspective is welcome. Scholars in this field of research are welcome to submit original articles or reviews (narrative reviews, systematic reviews, and meta-analyses) to our Special Issue.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Louise Herrington School of Nursing, Baylor University, Dallas, TX
75246-1754, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1
(Leadership and Management)
