# Special Issue

# Research Advances in Gastroenterology

### Message from the Guest Editor

The aim of this Special Issue is to provide a special collection on the emerging technologies that influence the field of gastroenterology, with particular focus on biological, social and epidemiological approaches. Original articles, reviews and perspectives on these translational technologies are encouraged. Given the intersection of multiple areas, manuscripts focused on translational research in biology, immunology, microbiology, systems biology, social sciences as well as qualitative pieces are strongly encouraged. In particular, studies relating to the use of social media and modern technological systems are welcome.

- gut microbiota
- metabolomics
- biologics
- mucosal immunology
- personalized medicine
- organoids
- healthcare delivery
- mobile apps
- telemedicine
- virtual care
- patient knowledge and perception
- social determinants of health
