

Special Issue

Antibiotics and Pharmacists

Message from the Guest Editor

Pharmacists are important members of the healthcare team and play a major role in medicines use and the provision of advice regarding appropriate medicines usage. Pharmacists have the potential to influence the behavior of other health professionals and consumers as part of a multidimensional strategy for changing practice to ensure the quality use of antimicrobial agents. Pharmacists are well placed to improve the understanding of antibiotics and their judicious use by direct contact with consumers in the community and in hospitals and raising the awareness of consumers regarding appropriate antibiotic use. This Special Issue will explore the pharmacist's role in optimal antimicrobial use as an essential component in the fight against the growing challenge of antimicrobial resistance, and pharmacists' successful contributions in promoting safe and cost-effective use of antimicrobial agents. We will feature original research studies, reviews, short reports, or opinion pieces from researchers in these research topics.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Louise Herrington School of Nursing, Baylor University, Dallas, TX
75246-1754, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1
(Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
