

Special Issue

Community-Engaged Interventions for Health Equity: Implementation and Impact

Message from the Guest Editor

Achieving health equity is integral to the promise of medicine to the public, a pillar in establishing its reputation as an institution for health and health promotion. It is achieved through community and population health, two similar yet distinct approaches to promoting the public's health through the use of upstream practice and prevention strategies. The imperative for healthcare organizations to demonstrate how they provide benefits and deliver health to the patients and communities they serve has never been greater. In this special issue, we invite scientists, clinicians, and public health experts to submit their work on promoting and achieving health equity through population health strategies that embody community-engaged interventions. Promoting such work will help ensure it is viewed within the same spectrum as the sophisticated sciences that lead to remarkable medical breakthroughs in the clinic, thereby reaffirming that the breakthroughs in the community hold equal value.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Louise Herrington School of Nursing, Baylor University, Dallas, TX
75246-1754, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1
(Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
