Special Issue

AI-Driven Healthcare Insights

Message from the Guest Editors

This Special Issue aims to demonstrate how AI-powered data exploration can lead to breakthrough discoveries that extend our understanding of current theory and practice in healthcare. We particularly encourage submissions that showcase novel AI and machine learning approaches, including but not limited to deep learning, neural networks, ensemble methods, and emerging AI technologies that offer new perspectives on healthcare challenges. Themes and article types include the application of AI and machine learning methods to healthcare datasets to discover complex relationships among variables and generate actionable insights for healthcare researchers and practitioners. Additionally, review articles that examine how AI-driven approaches create value by directing future research directions and identifying novel research questions are strongly welcomed. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peer-reviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.
Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special
issues.
We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista
Louise Herrington School of Nursing, Baylor University, Dallas, TX 75246-1754, USA

Author Benefits

High Visibility:
indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:
JCR - Q2 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
