

Special Issue

Comprehensive Clinical Physiotherapy and Rehabilitation: Version II

Message from the Guest Editor

In order to improve a patient's physical ability, effective physiotherapy treatment and an assessment of comprehensive physiotherapy appear to be important. Thus, proper understanding of clinical factors along with adequate physiotherapy has become a critical component of any comprehensive rehabilitation. In addition, the accurate assessment of physical function can lead to the early detection and prevention of disease. Therefore, it is critically important that physiotherapists constantly develop their knowledge and techniques. This Special Issue aims to serve as a global forum for the discussion of all aspects of motion analysis, physiotherapy, and rehabilitation studies including evaluation, treatment, and prevention.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Sue & Bill Gross School of Nursing, University of California, Irvine, CA
92697, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q1 (Health Policy and Services) / CiteScore - Q1
(Leadership and Management)
