

Special Issue

Care and Treatment of Ear, Nose, and Throat

Message from the Guest Editor

Otolaryngology deals with disorders of the ears, nose, paranasal sinuses, pharynx, larynx, salivary glands, and oral cavity, as well as hearing and balance problems, sleep disorders, and allergies. This Special Issue is dedicated to otolaryngologists, head and neck surgeons, audiologists, and phoniatrists, as well as radiologists, pathomorphologists, and facio-maxillofacial surgeons dealing with disorders of the head and neck. Our goal is to present the latest discoveries in the diagnosis and treatment of ENT diseases. We aim to expand our existing degree of knowledge with new discoveries and an open discussion on topics that have not yet been sufficiently studied. We welcome the submission of original research papers and up-to-date systematic reviews or meta-analyses and reports focused on new technological developments.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Sue & Bill Gross School of Nursing, University of California, Irvine, CA
