

Special Issue

Decision Modelling for Healthcare Evaluation: 2nd Edition

Message from the Guest Editor

The study of health decision modelling is rapidly growing because governments, insurers, healthcare organisations and the pharmaceutical industry recognise the need to estimate the costs, clinical outcomes and benefits of healthcare systems. These developments have increased due to the important changes in clinical decision-making processes that have been carried out in response to the COVID-19 pandemic. This Special Issue aims to bring together state-of-the-art research and practical applications carried out on clinical decision-making processes or on Decision Modelling for Healthcare Evaluation. Topics of interest include but are not limited to:

- Decision analytic models for healthcare evaluation;
- Decision probabilistic models for healthcare evaluation;
- Analysing and presenting simulation output from decision modelling for healthcare evaluation;
- Decision modelling for healthcare under uncertainty;
- Technology and decision modelling for healthcare;
- Other related topics.

Best Regards,

Guest Editor

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Sue & Bill Gross School of Nursing, University of California, Irvine, CA
92697, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.4 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
