Special Issue

Mental Health and Nursing Care of Individuals with Cancer and Their Families—2nd Edition

Message from the Guest Editor

Following on the success of the first edition, and in consideration of the wide range of mental health and cancer challenges, we are proceeding with a second edition to facilitate coverage of additional work on this topic. For this second edition, we are seeking original research or program/intervention evaluations directed toward understanding patient and family member challenges that impact the mental health of individuals with cancer and their families. Reviews and both quantitative and qualitative designs will be considered.
