Expanding Competency of Primary Health Care: Emotional and Bio-Social Meanings for General Practice Consultation

Message from the Guest Editor

Able doctors in primary care are those who can link emotional, social and bio-clinical descriptors and offer personalized actions or advice. General practitioners have the opportunity to understand what kind of emotional, social and biological aspects influence people's lives, affecting their health and wellness. We seek original articles concerning positive or negative associations between descriptors such as empathy, connectedness, trust, social bonding, emotional wellness, daily life discomfort or other psychosocial factors and bio-clinical variables from primary-care environments. Articles on the interface of primary and secondary care are a priority. Reviews approaching psychosocial issues with laboratory research linkages are welcomed. Articles which describe roots of general practice consultation and reasons to change, or explain better outcomes, are also welcome.

- Primary health care
- General practice
- Trust
- Empathy
- Consultation spirit
- Psychosocial determinants
- Bio-clinical determinants
- Emotional determinants
- Connectedness
- Social bonding
- Emotional wellness

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Sue & Bill Gross School of Nursing, University of California, Irvine, CA
92697, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.4 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
