Special Issue

Physical Exercise in Chronic Diseases: Assessment, Implementation and Effectiveness

Message from the Guest Editor

In this Special Issue, original research articles and reviews are welcome. Research areas may include (but not limited to) the following:

- Systematic reviews and meta-analyses of the efficacy of therapeutic exercise in the treatment of chronic diseases.
- Studies on the assessment and prognosis of therapeutic exercise in patients with chronic diseases.
- Experimental studies measuring the efficacy of therapeutic exercise in patients with chronic diseases.
- Comparative and psychometric studies of different tools for the assessment of activity and therapeutic exercise in chronic diseases.
