Evidence-Based Practice in Occupational Health: Development and Adaptation of Psychometric Instruments

Message from the Guest Editors

This Special Issue aims to collect original research articles and comprehensive reviews that address the development and adaptation of psychometric instruments specifically within the context of occupational health. By focusing on validity evidence and the methodological rigor required for instrument adaptation and development, this Special Issue seeks to enhance the tools available to occupational health professionals, aiding in precise and contextual diagnoses and interventions. In this Special Issue, we welcome a range of articles including, but not limited to:

- Studies on the development of new psychometric instruments tailored to occupational health.
- Studies that provide validity evidence of existing instruments in different cultural contexts.
- Comparative research on various psychometric tools assessing similar constructs.
- Systematic reviews and meta-analyses on the application and effectiveness of psychometric instruments in occupational health.
- Cross-sectional studies focused on the cultural adaptation and standardization of assessment instruments.

We look forward to receiving your valuable contributions.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Sue & Bill Gross School of Nursing, University of California, Irvine, CA
92697, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q1 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2026).
