

Special Issue

Addressing Health Disparities in Cancer Care

Message from the Guest Editor

The burden of cancer is an important public health concern. However, there remains a scarcity of best practices for understanding and responding to the burden of cancer and its disparities. This Special Issue focuses on health disparities in cancer care.

Submissions of original articles, systematic reviews, short communications, and other types of article on related topics are welcome. All manuscripts will follow standard journal peer-review practices, and those accepted for publication will appear in the Special Issue entitled “Addressing Health Disparities in Cancer Care”. We look forward to receiving your contributions to this Special Issue.
