

Special Issue

Diagnostic, Prognostic, and Therapeutic Pathways in Emergency Medicine and Critical Care

Message from the Guest Editor

As healthcare providers in emergency medicine and critical care, we are faced with numerous questions every day: How can we make fast and well-informed clinical decisions? How can we make sure patients are treated at the right place in a timely manner? What tools and information are needed by patients and providers to improve acute healthcare? These questions lay the framework for research on diagnostic, prognostic and therapeutic pathways in emergency medicine and critical care. For this Special Issue of *Healthcare*, I'd like to invite you to submit original research as well as systematic reviews (including scoping and mapping reviews) on diagnostic, prognostic and therapeutic pathways in acute healthcare. This includes traditional interventional studies, as well as those on diagnostic and prognostic research. Both clinical- and health services research-oriented contributions are welcome.

- emergency medicine
- critical care
- diagnostic and prognostic research
- health services research

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Sue & Bill Gross School of Nursing, University of California, Irvine, CA
92697, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 22.4 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the second half of 2025).
