

Special Issue

The Effects of Social Relationships on Health in Old Age

Message from the Guest Editor

This Special Issue of *Healthcare* seeks commentaries, original research, short reports, and reviews on the effects of social relationships on health in old age, focusing on new and emerging topics. This Special Issue aims to identify dimensions of social relationships that promote physical, cognitive and mental health. It will also welcome contributions exploring moderating and mediating factors, as well as longitudinal processes and objective health measures that may provide a firmer ground for decision making in addition to self-report measures. Additional related contributions are welcome. It is envisioned that health policy specialists, policymakers, and healthcare practitioners will use this Special Issue as a resource for developing progressive social interventions for older adults.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Louise Herrington School of Nursing, Baylor University, Dallas, TX
75246-1754, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)
