

## Special Issue

# Home Health Care for the Future

### Message from the Guest Editors

This Special Issue of Healthcare welcomes contribution of studies addressing possibilities and challenges for providing home health care from the perspectives of patients, their informal carers, health care providers and leaders. We are interested in studies and reviews that highlight quality and safety, innovation and service development in home health care and ask for manuscripts that highlight factors that enable and enhance a seamless health care service, where coordination of care and collaboration in home health care are addressed. In particular, we welcome research on how the COVID-19 pandemic has influenced home health care.

---
