

# Special Issue

## Focus on Quality of Neurology and Stroke Care for Patients

### Message from the Guest Editor

We are pleased to invite you to contribute to this Special Issue on the topic of the quality of neurology and stroke care. For this Special Issue, original research articles and reviews are welcome. Research areas may include (but are not limited to) the following:

- Access to stroke centres providing thrombolysis and mechanical thrombectomy;
- Comprehensive quality care for stroke patients;
- Additional aspects of hospitalization, such as rehabilitation, feeding, the prevention of complications, delirium, deconditioning, falls, and end-of-life care;
- Access to in- and outpatient services, such as rehabilitation, spasticity treatment, psychiatric treatment, a dietitian, and psychological and speech therapy;
- Post-discharge care for stroke patients;
- The ability to continue working and access to occupational health support;
- Access to diagnostic procedures and medical facilities for diagnosing neurological conditions;
- Access to, and organization of, specialized neurological centres in different countries;
- Inequalities in access to neurological clinics and hospitals.

### Guest Editor

Dr. Dariusz Kotłowski
