Special Issue

Identifying Biomarkers of Mental Health Vulnerability

Message from the Guest Editors

Identifying biomarkers of mental health vulnerability may help to guide early diagnosis as well as personalized treatment allocation. This Special Issue aims to publish original studies and reviews, including both clinical trials and observational studies, that examine potential markers of psychiatric diagnosis and/or treatment resistance and response. The methodologies used may include (but are not limited to) neuroimaging techniques such as (functional) magnetic resonance imaging and electroencephalography. Regarding reviews, we will consider narrative, systematic, umbrella reviews, and meta-analysis that examine specific review questions. Studies including samples with specific psychiatric diagnosis are welcome, as well as studies that more broadly explore mental health symptomatology from a dimensional perspective. We look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peer-reviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed. *Healthcare* hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special
issues.
We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista
Louise Herrington School of Nursing, Baylor University, Dallas, TX 75246-1754, USA

Author Benefits

High Visibility:
indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:
JCR - Q2 (Health Policy and Services) / CiteScore - Q1 (Leadership and Management)

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
