

Special Issue

Incarceration and Health

Message from the Guest Editor

Mass incarceration has received attention as an example of racism in criminal justice, but the links between mass incarceration, racism and health have been less defined. Morbidity and mortality among incarcerated people and others with criminal justice involvement often focus on the health demographics of those individuals rather than health risks that prisons, jails and immigration detention centers confer to people held in those settings. In addition, correctional systems are often operated to avoid the systemic analysis of health outcomes, especially those that reflect institutional risk from abuse or neglect. Similarly, the systemic health risks conferred by parole, probation and other forms of community supervision are poorly understood. In order to define the health risks of incarceration, and leverage public health organizations and voices in the effort to address the health consequences of mass incarceration, we are dedicating this special issue of Healthcare to Incarceration, racism and health.

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, peerreviewed, open access, multidisciplinary journal. Original research articles, short communications, review articles, and symposium highlights are welcomed.

Healthcare hopes to influence global health and disease aspects, and hopes to gain high visibility and acceptance by the scientific and healthcare community and will dedicate itself to covering special and specific topics in special issues.

We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista

Louise Herrington School of Nursing, Baylor University, Dallas, TX
75246-1754, USA

Author Benefits

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), PubMed, PMC, and other databases.

Journal Rank:

JCR - Q2 (Health Policy and Services) / CiteScore - Q1
(Leadership and Management)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the first half of 2025).
