Special Issue

Virtual Reality Technologies in Health Care

Message from the Guest Editors

Virtual reality (VR) offers extraordinary possibilities for healthcare. Continued improvements in hardware and software, coupled with the reduced cost of interaction devices, are driving the adoption of these technologies in multiple fields, including education and healthcare delivery. We are pleased to invite you to share experiences, usage cases and novel proposals of VR technologies for healthcare, including reviews, experimental results, usability analyses, challenges and possible barriers (e.g., resistance to wear HMDs or head-mounted displays). Such a compilation of results will allow readers to discover the real capabilities and future potential of VR technologies for healthcare.

Guest Editors

Dr. César Fernández

Dr. Susana Lorenzo

Dr. María Asunción Vicente

Deadline for manuscript submissions

30 September 2025

About the Journal

Message from the Editor-in-Chief

Healthcare is an international, scientific, peer-reviewed, open access journal on health care systems, industry, technology, policy, and regulation, and is published semimonthly online by MDPI. Ocular Wellness & Nutrition Society (OWNS) is affiliated with Healthcare and its members receive discounts on article processing charges.

Editor-in-Chief

Prof. Dr. Lorraine S. Evangelista
Sue & Bill Gross School of Nursing, University of California, Irvine, CA 92697, USA
