

Special Issue

Virtual Reality in Mental Health

Message from the Guest Editors

We are delighted to extend this invitation to you to contribute to this Special Issue entitled "*Virtual Reality in Mental Health*". The aim of this Special Issue is to bring together cutting-edge research, innovative methodologies, and critical insights on the utilization of virtual reality in mental health. By focusing on this topic, we aim to provide a platform for researchers and practitioners to share their findings, experiences, and perspectives, ultimately advancing our understanding of the potential benefits and limitations of VR in mental health contexts. In this Special Issue, we welcome original research articles and comprehensive reviews that cover various themes related to virtual reality in mental health. Potential research areas may include, but are not limited to, the following: Virtual reality interventions for specific mental health disorders (e.g., anxiety, depression, PTSD, and phobias); We look forward to receiving your valuable contributions to this Special Issue. By sharing your expertise and research outcomes, we can collectively advance this field and foster innovative approaches to mental health care.
